

OCR Self-Assessment Guide - Student Identification

Equal Educational Opportunities for Limited English Proficient Students

(ESL, Bilingual, Structured Immersion)

Instructions for Completing the Assessment Guide

This Assessment Guide is to assist school systems to voluntarily comply with Title VI of the Civil Rights Act of 1964 regarding equal educational opportunities for national origin minority students who are limited-English proficient. Responses to questions also may be used by the Office for Civil Rights in conducting compliance reviews on this issue. The Guide is part of a Region VII OCR pilot program to encourage partnership approaches to civil rights compliance. School systems are not required to provide data to OCR in this format.

This Guide is designed to provide the district with a comprehensive overview of its practices and procedures. Using the following Student Identification form circle the answer under each statement that best responds to the statement, indicating in the Comments if a statement does not apply. Other comments may also be provided to explain an answer. The Office for Civil Rights anticipates that the Guide will be completed by a team of individuals who are most knowledgeable of the district's policies and procedures.

Limited-English proficient (LEP) students are students who speak or were influenced by a language other than English, and who are unable to participate meaningfully in the regular educational program because of their inability to speak and understand English. The first step most districts follow in determining which students are LEP is to determine which students have a primary or home language other than English (PHLOTE). PHLOTE students may or may not be LEP.
